## Lifetime medical protection against Critical Illness

**Severe Illness Medical Protection Rider** is a **comprehensive add-on plan** that strengthens your critical illness cover by adding medical protection against 58 critical illnesses. Upon a confirmed diagnosis of any of 58 critical illnesses, **Severe Illness Medical Protection Rider** will provide lifetime cover up to HK\$25,000,000. Moreover, medical treatment of any subsequent illness or injury occurs after the diagnosis of any 58 critical illnesses would also be reimbursed, providing you a stress-free future to you and your family.

## Comprehensive cover to support your treatment

When critical illness strikes, it can be easy to underestimate the total cost of treatment, medication, rehabilitation and lifestyle adjustments. With **Severe Illness Medical Protection Rider**, you can enjoy broad hospitalisation and surgical reimbursement cover for treatment expenses incurred in Asia, giving you support when you need it most.

## Lifetime guaranteed renewal

**Severe Illness Medical Protection Rider** guarantees that your premium for renewal will not be raised for any claim you have made, or any changes in your health condition. You can renew your cover every year for life. Renewal premium will be based on the prevailing premium rates at the time of renewal (Please refer to the Annual Premium Table for the first year premium provided by your financial planner.)

## Extended caring protection to safeguard the needs of stroke and cancer patients

Stroke is a common disease with potentially harmful consequences, often requiring extensive periods of recovery and additional living support. This add-on plan offers extended caring protection to address the daily needs and self-care capabilities of stroke patients, so that you may receive the proper care even in the comfort of your own home. These include:

- **home facility enhancements approved by occupational therapists** – widening of corridors, adapting bathroom facilities and purchasing specialised furniture, etc.
- **professional medical support** – consultations, treatments and prescriptions from chiropractors, physiotherapists, speech therapists, occupational therapists, neurologist, neurosurgeons and Chinese medical practitioners according to your personal needs
- **disability subsidy** – if you become unable to take care of yourself for at least 6 uninterrupted months, we will provide a disability subsidy of HK\$5,000 per month to you for up to 24 months

This add-on plan also includes enhanced support for cancer patients with cover for chemotherapy, radiotherapy, targeted therapy and the related consultations, medications and diagnostic tests. For patients with kidney diseases, we also cover the expenses required for regular dialysis treatments.

## Timely Carcinoma-in-situ support for better outcomes

Even though Carcinoma-in-situ is not a major critical illness, it has the opportunity to expose the risk of malignancy. Early treatment can increase recovery opportunity. This add-on plan provides you additional Carcinoma-in-situ Treatment Benefit coverage up to HK\$2,000,000 per life, giving you the support when you are needed. Any other illness or injury occurs after Carcinoma-in-situ treatment would not be covered unless any of 58 critical illness is diagnosed.

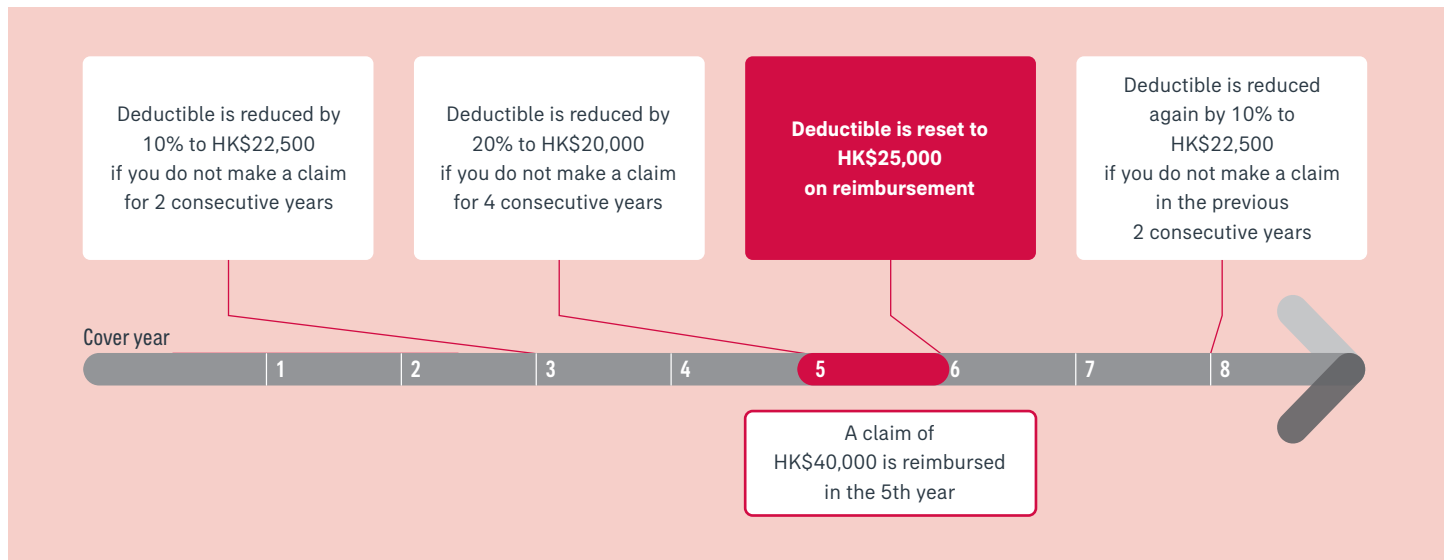

## No-claim deductible discount up to 100%

If no claim is made for two consecutive cover years, our **Severe Illness Medical Protection Rider** offers a 10% discount on your selected deductible choice in the following cover year. Such discount will accumulate every two consecutive cover years and can reach up to 100%, meaning that the deductible amount can be reduced to zero.

The discount applies to the original deductible amount of your plan, and will be reset to 0% in the next cover year upon claim payment.

Even if you received hospital cash benefit, day surgery benefit, day surgery cash benefit or worldwide emergency assistance services (see benefits schedule, items 8, 10, 12 and 26 for details), your eligibility for this discount will not be affected.

## Flexibility to suit your needs

We understand that everyone's situation is different. That's why we offer 3 annual deductible choices for each policy currency you have chosen to suit your personal medical needs:

|                           | HK\$   | US\$  |
|---------------------------|--------|-------|
| Annual Deductible Choices | 0      | 0     |
|                           | 16,000 | 2,000 |
|                           | 25,000 | 3,125 |

Whether you are looking for medical protection or top-up cover to supplement your current medical plan, annual deductible choices allow you to specify how much you are willing to pay before you claim. Higher deductible amount could lower your premium. For example, if you chose an annual deductible of HK\$16,000 and your eligible medical expense is HK\$100,000, you would receive HK\$100,000 less your deductible, which would be HK\$84,000.

You can also choose to reduce your annual deductible amount to a specified amount without having to provide us with current details of your health upon the anniversary of your cover at the age of 50, 55, 60 or 65. The premium will be adjusted based on your selected deductible amount, and your out-of-pocket limit for a claim will be reduced. Before making your request for this reduction of deductible, you may have to reassess if this reduction can suit your personal needs.

## Protection that grows with you

Your protection needs will increase as you transition from one life stage to the next. To ensure that your cover continues to meet your needs, you can choose to upgrade this plan to a specified AIA medical add-on plan through either normal underwriting at any anniversary, or simplified underwriting upon the anniversary at the age of 50, 55, 60 or 65 according to the prevailing rules for factors such as claim history and plan duration.

## Important Information

*This brochure does not contain the full terms and conditions of the policy. It is not, and does not form part of, a contract of insurance and is designed to provide an overview of the key features of this product. The precise terms and conditions of this add-on plan are specified in the policy contract. Please refer to the policy contract for the definitions of capitalised terms, and the exact and complete terms and conditions of cover. In case you want to read policy contract sample before making an application, you can obtain a copy from AIA.* This brochure should be read along with the illustrative document (if any) and other relevant marketing materials, which include additional information and important considerations about this product. We would like to remind you to review the relevant product materials provided to you and seek independent professional advice if necessary.

This add-on plan is an insurance plan without any savings element. All premiums are paid for the insurance and related costs.

This brochure is for distribution in Hong Kong only.

### Key Product Risks

1. This plan is an add-on plan. You need to pay the premium for this plan until the end of cover period or when the basic plan it is attached to is terminated, whichever is earlier. If you do not pay the premium within 31 days of the premium due date, the add-on plan will be terminated and you / the insured will lose the cover.
2. You may request for the termination of your policy by notifying us in written notice. Also, we will terminate your policy and you / the insured will lose the cover when one of the following happens:

- the insured passes away;
- you do not pay the premium within 31 days of the premium due date;
- the aggregate benefits under the relevant insurance policy reaches the overall lifetime limit; or
- the basic plan has been terminated.

If the insured happens to be hospitalised on the date when add-on plan is terminated because you do not pay the premium within 31 days of the premium due date, we will extend the cover for an additional 30 days without the need for you to make any payments, subject to the same benefit limits which apply to your original plan.

3. We underwrite the plan and you are subject to our credit risk. If we are unable to satisfy the financial obligations of the policy, the insured may lose his cover and you may lose the remaining premium for that policy year.
4. You are subject to exchange rate risks for plans denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations. You should consider the exchange rate risks and decide whether to take such risks.
5. The future medical costs will be higher than they are today due to inflation. Hence, the benefit amounts and the future premium rate of this add-on plan may be revised to reflect the inflation (Please refer to the Annual Premium Table for the first year premium provided by your financial planner).

### Key Exclusions

### Premium Adjustment and Product Features Revision

In order to provide you with continuous protection, we will annually review and adjust the premium of your plan accordingly at the end of policy year if necessary. During the review, we may consider factors including but not limited to the following:

- claim costs incurred from all policies under this add-on plan and the expected claim outgo in the coming year which reflects the impact of medical trend, medical cost inflation and product feature revisions
- historical investment returns and the future outlook of the product's backing asset
