### Key Product Risks

1. You should pay premium(s) on time and according to the selected premium payment schedule. If you do not pay the premium within 31 days of the premium due date, the policy will be terminated and you / the insured will lose the cover. In this case, you may receive an amount considerably less than the total amount of premiums paid.
2. Should you surrender the policy early, you may receive an amount considerably less than the total amount of premiums paid.
3. You may request for the termination of your policy by notifying us in written notice. Also, we will terminate your policy and you / the insured will lose the cover when one of the following happens:
  - the insured passes away;
  - the policy matures once the policy reaches the end of the 12th policy year;
  - you do not pay the premium within 31 days of the due date; or
  - upon any payment of the Accidental Death & Dismemberment benefit.
4. You must immediately notify us of any change to the insured's occupation, employment, duties and other pursuits once the policy becomes effective. If the change to the insured's occupation, employment, duties and other pursuits is one that is classified by the Company as not insurable, we will not be liable for any losses sustained pertaining to that occupation.
5. The policy will be terminated once we pay the Accidental Death & Dismemberment benefit, even 2% of the sum assured, and Return of Premiums Benefit will no longer be provided. In this case, you may receive an amount considerably less than the total amount of premiums paid.

6. We underwrite the plan and you are subject to our credit risk. If we are unable to satisfy the financial obligations of the policy, you / the insured may lose the cover and you may lose your premium paid.
7. You are subject to exchange rate risks for plans denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations. You should consider the exchange rate risks and decide whether to take such risks.
8. Your current planned benefit may not be sufficient to meet your future needs since the future cost of living may become higher than they are today due to inflation. Where the actual rate of inflation is higher than expected, you may receive less in real terms even if we meet all of our contractual obligations.
